

THE CART LOCKER

MISSION

**TO REVOLUTIONIZE
GOLF STORAGE **WORLDWIDE.****

Seamlessly blending organization with innovation
to craft a premium motorized cart storage solution.

THE MOTORIZED CART MARKET IS GROWING FASTER THAN THE SPORT.

Worldwide, the motorized cart market totals over 300 million in sales and continues to grow...

Rise of Smart Trolleys

One of the most prominent trends in the motorized cart market is the integration of smart and connected technologies.

Motorized carts now provide valuable insight into a player's performance, and as technology advances, we can expect further innovations, such as AI-driven coaching tips and real-time weather updates.

Health and Fitness Integration

Motorized carts, in particular, are being designed with features that promote health and fitness – integrating fitness trackers, step counters, heart rate monitors, and even calculating calories burned.

Eco-Friendly Initiatives

Environmental sustainability is becoming a central theme in the motorized cart market. Motorized carts, powered by rechargeable batteries, are inherently more eco-friendly than their gas-powered counterparts.

Electric is King

Motorized carts are expected to see the fastest growth in the coming years. Adoption is rising across all demographics—from an aging population seeking ease and support on the course, to women and younger golfers who value technology-driven, innovative solutions.

INTRODUCING THE **NEW STANDARD** FOR MOTORIZED CART STORAGE AND CHARGING

- ◆ Powder-Coated Stainless Steel
- ◆ Individually Vented Lockers

- ◆ Compatible with All Major Motorized Cart Brands
- ◆ Slanted Roof for Weather Proofing

- ◆ Adjustable Feet
- ◆ Modular Design

CLEAR THE CHAOS

Nearly every private golf club has a motorized cart storage issue. Either they do not offer storage services, frustrating members, or they have a haphazard solution with chords tangled and carts taking up valuable floor space with multiple batteries charging indoors, creating a monumental fire hazard. The Cart Locker provides a clean and organized look while reducing fire risk and potential liability costs.

GENERATE REVENUE (ROI)

By providing personal motorized cart lockers, private clubs can charge members for storage, allowing them to recoup their initial investment within 3–5 years while creating an ongoing revenue stream for years to come. In addition, private clubs will naturally sell more motorized carts through the pro shop as a result of adopting the locker system, therefore generating additional profit from both cart sales and locker rental revenue.

CREATE EFFICIENCIES

With The Cart Locker, each member can access their locker independently, without the need for a concierge, allowing them to store, charge, and retrieve their motorized cart at their convenience. Moving motorized cart storage from indoors to outdoors also frees up valuable space within the club—an added benefit.

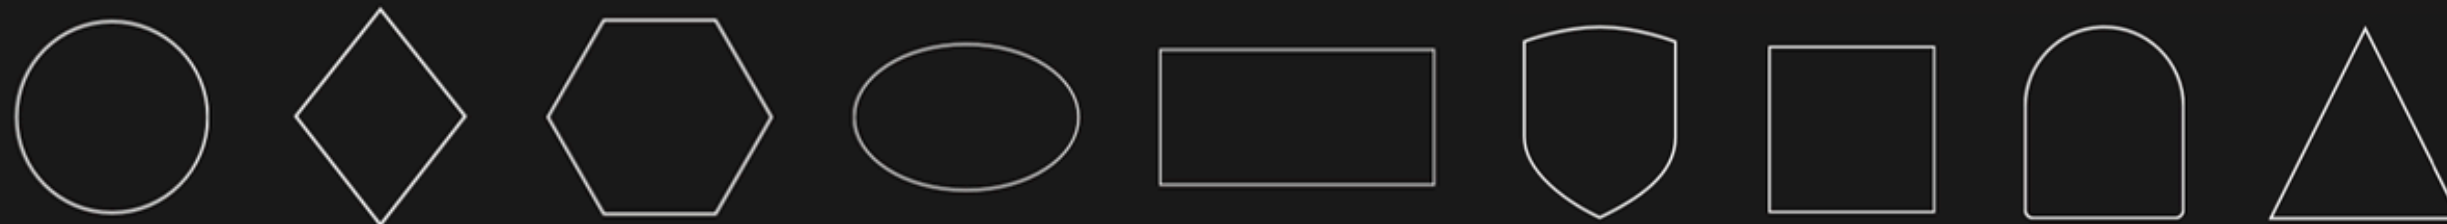

THE ELEVATED MEMBER EXPERIENCE

- A personal, private, and secure locker gives members a place to store personal belongings while on the course and charge devices such as a laptop or cellphone prior to a business meeting afterward. Additionally, being able to charge a speaker or Garmin while also charging a motorized cart overnight makes THE CART LOCKER an exceptional choice for these lifestyle conveniences—and members truly love this solution.
- Since a wide variety of motorized cart brands fit The Cart Locker, this provides members with the flexibility to choose a model that meets their needs and preferences, while accommodating a range of price points—keeping all brands relevant as The Cart Locker expands across North America and globally.

OVER 175+ CUSTOM COLORS AVAILABLE

CUSTOM LOGO PLATE SHAPES

Our 66 lockers are fully subscribed, and we now have a wait list for people who require additional storage. This is a new great problem to have!

Matt Freeman, Head Golf Professional

CANYON MEADOWS

"We encountered a challenge due to the overwhelming demand for electric cart storage, and our existing space couldn't meet the needs of all our valued members. The introduction of the Cart Locker proved to be the ideal solution. The streamlined efficiency of the Cart Locker system empowered us to fully maximize our storage capacity while elevating the overall experience for our members."

Pat Wilmot
Head Golf Professional
Earl Grey Golf Club

With the growing demand for Member Cart Storage at Priddis Greens, we made the decision to add to our current members' cart storage options. We reached out to the team at The Cart Locker, and together we came up with a solution to add 36 units. The response from our membership was extremely positive.

It provided our members with a convenient, weather-tight, secure solution to store their cart and charge their battery. We have since added another 36 units, and our demand for cart storage continues to grow.

The Cart Locker is the **BEST solution on the market in my opinion!**

SOLAR POWERED OPTIONS

Eliminates the need for traditional power hookups, allowing clubs to install storage lockers anywhere on their property without trenching, wiring, or tying into existing infrastructure.

PROFESSIONAL. PROVEN. PREFERRED

This year's show was another great time, and we're deeply grateful for the opportunity to continue connecting with so many clubs, professionals, and industry partners.

After our third year at the show, it was especially exciting to see more and more courses eager to bring The Cart Locker on board and solve ongoing challenges as the motorized cart industry continues to grow! We're proud to be part of the future of golf club innovation.

- Enhances the Overall Member Experience
- Generates Consistent, Long-Term Revenue
- Awarded Canadian Golf Product of the Year 2024
- Built to Be Flexible, Durable, and Future-Proof

MEMBER RESPONSE

Members have reported a significant improvement in their experience with the introduction of The Cart Locker. They no longer need to transport heavy carts to and from home, and can enjoy the peace of mind that their equipment is secure, well-maintained, and fully charged for their next round.

In addition, having a personal locker on site that is easily accessible and can store belongings plus charge devices—such as phones, speakers, Garmins, laptops, and more—provides a truly elevated, top-tier member experience.

“Gives me freedom to come and go... secure, well kept, fully charged”.
